## Task 1:

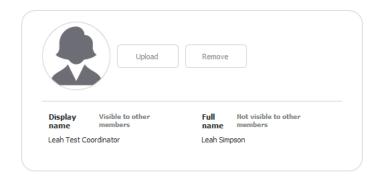

Implement below UI. Using SCSS.

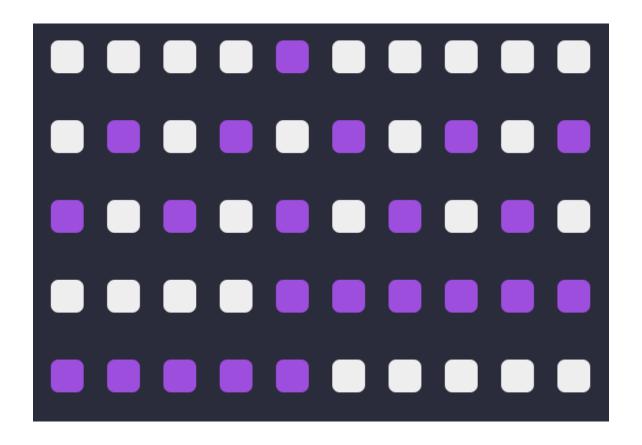

## Task 2:

Add SCSS to the below markup to get correct UI.

```
<div class="container" id="container">
        <div class="avatarContainer">
            <img src="/avatar.png" class="avatar">
3
            <div id="uploadBtn" onclick="OnButtonClick" class="centered button">Upload</div>
            <div id="removeBtn" onclick="OnButtonClick" class="centered button">Remove</div>
5
        </div>
        <div class="separator"></div>
        <div class="avatarContainer ">
8
           <div class="field-container">
                <div class="field-header">
10
11
                   <b>Display name</b><b class="hint">Visible to other members</b>
                </div>
12
13
                Asmaa
14
            </div>
            <div class="field-container with-left-margin">
15
16
                <div class="field-header">
17
                    <b>Full name</b><b class="hint">Not visible to other members</b>
18
                </div>
19
                FullName
20
            </div>
21
        </div>
22 </div>
```

**Task 3:**Add proper SCSS for the below markup to implement desired UI. (use color: #9d4edd;)

```
<div class="selector-cards">
  <div class="selector-card selector-card-1">
    <span></span>
    <span></span>
    <span></span>
    <span></span>
    <span></span>
    <span></span>
    <span></span>
    <span></span>
    <span></span>
    <span></span>
  </div>
  <div class="selector-card selector-card-2">
    <span></span>
    <span></span>
    <span></span>
    <span></span>
    <span></span>
    <span></span>
    <span></span>
    <span></span>
    <span></span>
    <span></span>
  </div>
  <div class="selector-card selector-card-3">
    <span></span>
    <span></span>
    <span></span>
    <span></span>
    <span></span>
    <span></span>
    <span></span>
    <span></span>
    <span></span>
    <span></span>
  </div>
  <div class="selector-card selector-card-4">
    <span></span>
    <span></span>
    <span></span>
    <span></span>
    <span></span>
    <span></span>
    <span></span>
    <span></span>
    <span></span>
    <span></span>
  </div>
</div>
```
